

Sibin C

MERN Stack Developer

6238014637 | sibinc36@gmail.com | github.com/sibin-project | sibin-portfolio.web.app | linkedin.com/in/sibin-dev

SUMMARY

MERN Stack Developer with internship experience. Built and deployed full-stack applications with authentication, real-time features, and scalable APIs.

SKILLS

Frontend	React.js, Next.js, JavaScript, TypeScript, Tailwind CSS
Backend	Node.js, Express.js, MongoDB
Tools	Git, GitHub, Postman, Firebase, Vercel, Render
Familiar With	Python, Django, FastAPI, Angular

EXPERIENCE

Full Stack Web Developer Intern — WebDevSoft (Remote)

Nov 2025 – Jan 2026

- Built REST APIs using Express.js and MongoDB for user management and authentication
- Implemented JWT-based role access control (admin and user)
- Developed responsive React UI integrated with backend APIs
- Participated in deployment workflow using Vercel for production releases

PROJECTS

ResumeMintAI — AI Resume Builder

Tech: React.js, Node.js, Express.js, MongoDB, Firebase Auth

- Built AI-powered resume generator with dynamic sections and PDF export
- Integrated Google OAuth using Firebase for secure authentication
- Developed REST APIs and structured MongoDB schema for flexible resume data
- Deployed full-stack app using Firebase Hosting and Render

[GitHub](#) [Live](#)

PeerConnect — Real-Time Video Platform

Tech: React.js, Node.js, Socket.io, WebRTC

- Built real-time video and audio communication using WebRTC
- Implemented Socket.io signaling server for peer connection and room management
- Developed dynamic room system with controls (mute, video toggle, leave)
- Designed responsive UI for seamless multi-user interaction
